

AgReserves, Inc.

Job Title: Senior Product Manager

Location: Salt Lake City, Utah

AgReserves, Inc. (ARI) is a multi-national, multi-corporate company that operates investment farms and ranches throughout the world. ARI currently has an opening for a Senior Product Manager at their headquarters location.

Position Description:

The Senior Product Manager is responsible to manage an integrated team of Product Managers who provide product management of assigned Management Information Systems including (but not limited to) ERP, ECM, CRM type systems. The Senior Product Manager may be assigned as a team lead or as a participant of a project defined by management.

Essential Job Functions:

- Provide direction and prioritization to Product Management Team members.
- Train and develop Product Managers assigned to the Product Management Team.
- Establish strong working relationships with system users while providing training and support.
- Act as a liaison with management and staff to resolve problems and improve systems.
- Oversee the creation and maintenance of test plans for patches and upgrades of systems.
- Participate as a member and/or lead project teams.
- Oversee the creation of user documentation for supported systems.
- Ensure that the delivery of systems is according to company/owner needs.

Expectations and Performance Measures:

- Respond to customer requests according to Service Level Agreement.
- Projects delivered on time according to project plan milestones and deliverables.
- Provide timely communication as outlined in the IT Communication Standards Document.

Skills and Other Qualifications Required:

- Bachelor's degree in Business Information Systems or equivalent.
- Seven to ten years of experience in the Information Technology field of application support/product management.
- Experience using and supporting an ERP system such as Lawson, Microsoft Dynamics, SAP, or Oracle.
- Experience supporting Procurement or Distribution processing.

NOTE: The specific statements shown in each section of this job announcement are not intended to be all-inclusive, but represent typical elements and criteria considered necessary to successfully perform the job.

AgReserves, Inc.

- Knowledge of relational databases and client/server technologies.
- Proficient computer skills including working with Microsoft Office (Visio, Excel, Word etc.).
- Strong analytic, organizational and problem solving skills.
- Ability to learn quickly and adapt to change.
- Strong and collaborative work ethic; team oriented; high integrity.
- Strong communication and interpersonal skills.
- Project Management skills (PMP desired).
- Ability to speak Spanish and/or Portuguese preferred.
- Provide employee reviews for the Product Management Team.
- Set goals and standards for the Product Management Team.
- Manage grievances and discipline in accordance to company policy.
- Train and develop the Application Support Team.
- Experience leading/managing teams.

Physical Demands and Work Environment:

- Domestic and International travel.
- After hours work on critical business systems.

Benefits:

Salary is commensurate with experience. Full-time employees receive excellent benefits including: Medical, Dental, Group Term Life, Disability, Retirement plus Plan, 401k, Flex-Spending, and other miscellaneous value-added benefits. AgReserves, Inc. is an equal opportunity employer.
